

Let's make

THE WORLD

a better place

SCSF

Sustainable **cities**_Sustainable **future**

SCSF project aims to develop a waste management and donation system in partner countries. To create awareness about zero waste and donation. To build a waste management and donation centre. To create a system and documentation about waste sorting. To build up capacity in partner organizations To find needy people and to help them. To contribute to circular economy of Europe effective use of resources and donation. To involve at least 400 beneficiaries in the SCSF project and educate them waste-conscious.

SCSF means Sustainable Cities Sustainable Future and the project addresses sustainable growth: promoting a more resource efficient, greener and more competitive economy with all European citizens by increasing school education knowledge and engaging students in recycling.

Main Objectives

- 1** Develop a waste management and donation system in partner countries.
- 2** Build up capacity in partner organizations in terms of sustainable cities and sustainable future.

TARGET Groups

Students and teachers in schools

Parents of students and residents in the local areas

Project Number: 2022-1-PT01-KA210-SCH-000083508

Period: 24 months: 31-12-2022 until 31-12-2024
